ABOUT BLUEGRASS LAND CONSERVANCY

Since 1995, Bluegrass Land Conservancy has worked to protect land in Kentucky's Bluegrass region through voluntary, permanent conservation easements.

As a nationally accredited, community supported, 501(c)(3) nonprofit land trust, we work with landowners, community groups, and municipalities to encourage the preservation of land for agricultural viability, natural habitat, rural heritage, and scenic open space.

We seek to ensure a future where the Bluegrass region's distinctive soils, cultural heritage, scenic vistas, natural resources and habitats, and farms are preserved – forever. We aren't just protecting land from development, we are conserving it for everyone – to achieve both economic and environmental goals; to promote harmony between people and places; to uphold quality of land and quality of life.

Bluegrass Land Conservancy has permanently protected nearly 39,000 acres to date in the inner and outer Bluegrass region of Kentucky.
